

The Los Angeles Department of Water and Power (LADWP) has completed the replacement of a water pipeline located under Century Blvd that was installed in 1937. The new pipeline was installed primarily on 98<sup>th</sup> Street and was placed in service in May 2022. Two-way traffic has been restored on 98<sup>th</sup> Street between Vicksburg Ave. & Sepulveda Blvd.

LADWP plans to replace an additional section of aging pipeline on Sepulveda Blvd. between 98<sup>th</sup> Street and Century Blvd. This section of existing pipeline has recently experienced two significant leaks and has met its useful service life.

**Construction on Sepulveda Blvd. between 98<sup>th</sup> Street and Century Blvd. will be at night on Monday through Friday from 9 pm to 5 am.**

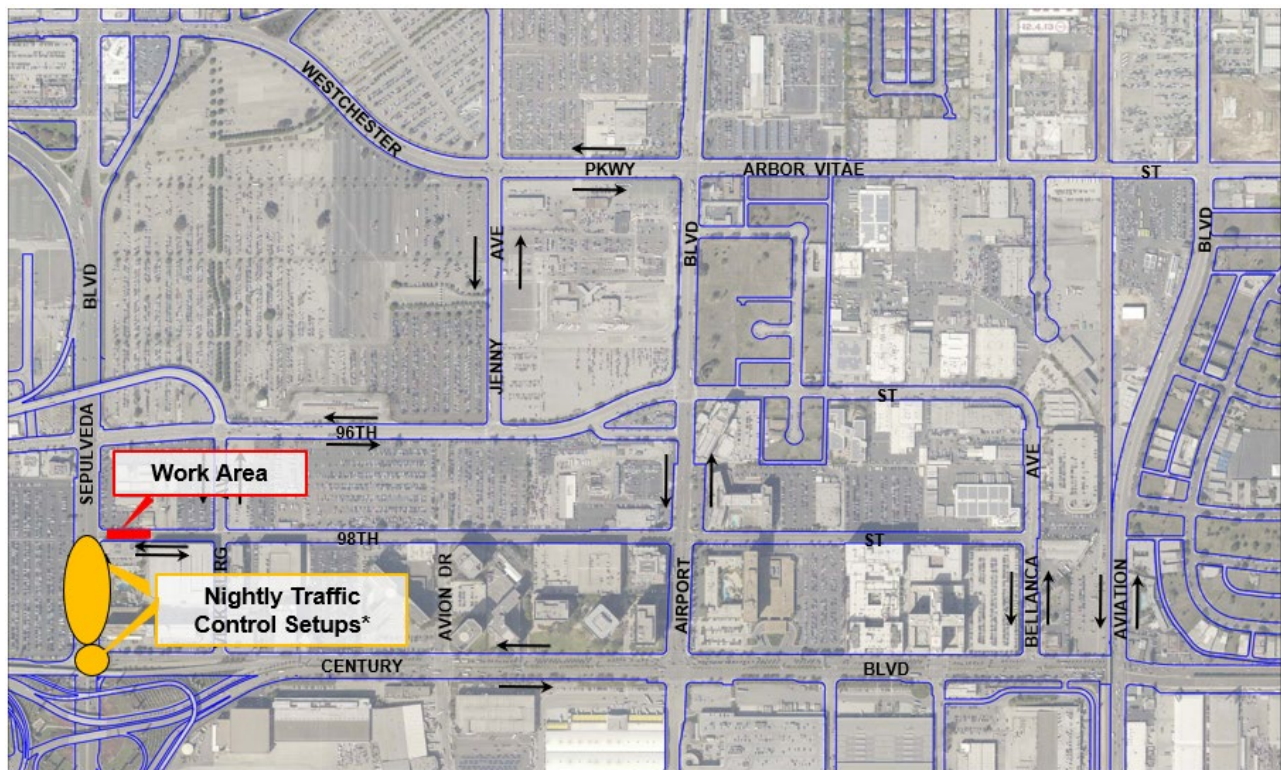

Note the following construction impacts on 98<sup>th</sup> Street:

- Reduced Construction Work Area on 98<sup>th</sup> Street.
- Parking will be restricted on 98<sup>th</sup> St. between Sepulveda Blvd. and Vicksburg Ave.
- Tow Away/No Stopping Any Time signage will continue to be posted during construction.
- Business access will be maintained at all times.

When crews are working on **Sepulveda Blvd.** temporary traffic control measures will be implemented. This may include:

- Reduced lanes of traffic.
- At the end of each work night, traffic control devices will be removed.
- Limited access from westbound Little Century Blvd. to southbound Sepulveda and thru traffic into LAX.

## August 2022 – December 2022
