PROJECT TITLE:

Haynes Generating Station Utility Pipe Bridge Replacement

PROJECT LOCATION:

6801 2nd St, Long Beach, CA 90803

CITY:

Long Beach

COUNTY:

Los Angeles

DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:

On April 24, 2023, LADWP personnel performing routine maintenance observed cracks under the eastern and western spans of the southernmost bridge, known as the Haynes Units 1 and 2 pipe utility bridge. To prevent catastrophic failure, the compromised bridge spans were secured and removed under emergency conditions.

Project activities include installation of new spans using cranes, improvement to the existing support piers, and replacement of utilities removed during emergency work. Installation of the new bridge spans will utilize existing infrastructure and occur within the original footprint. This project will ensure Haynes Generating Station has the infrastructure in place to meet the power demands of LADWP customers.

CONTACT PERSON:

EXEMPT STATUS:

Categorical Exemption

SECTION:

15302 (c)

JUSTIFICATION FOR PROJECT EXEMPTION:

In accordance with the California Environmental Quality Act (CEQA), this project is Categorical Exempt pursuant to section 15302 (c) Replacement or Reconstruction. Section 15302, Class 2 consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, including: replacement or reconstruction of exiting utility systems and/or facilities involving negligible or no expansion of capacity.
