

Enroll in the Complimentary LADWP Outage Notification Program

Receive power outage information you need to make important business decisions!

If your business or organization is connected to a dedicated transformer on our high-voltage system, you are eligible for the Key Accounts Outage Notification Program.

The ONP can provide timely notifications with outage information including:

- Time the outage occurred
- Cause of outage if known
- Estimated time of restoration
- Duration
- Advance notification for planned maintenance on a circuit serving your facility

Timely Information Fast

Outage notifications can give operations and facility staff the data they need to make informed decisions for equipment, production and personnel.

Customized for Operational Needs

Customers can choose to get text, email, and/or phone notifications for outages that occur during business hours or around the clock.

To sign up or for more information, contact your account advisor.
