Subject: Extension of Public Review Period for
Notice of Intent to Adopt a Mitigated Negative Declaration for the
Long-Term Routine Maintenance Activities for Waterways in Inyo and
Mono Counties

The City of Los Angeles Department of Water and Power (LADWP) has prepared an Initial Study/Mitigated Negative Declaration (IS/MND) for the Long-Term Routine Maintenance Activities for Waterways in Inyo and Mono Counties. Pursuant to the California Environmental Quality Act (CEQA), LADWP is the Lead Agency and is responsible for the preparation of this document.

LADWP proposes to continue ongoing routine maintenance activities on man-made and natural waterways and associated facilities located in Inyo and Mono Counties in order to maintain such waterways and facilities essential to the continued delivery of water for irrigation and domestic use in Inyo and Mono Counties and the City of Los Angeles. The IS/MND is intended to support the acquisition of permits necessary for the continuation of long-term waterway maintenance activities.

The public review period commenced on December 18, 2017 and was set to conclude on January 31, 2018 at 5:00 pm. The public review period is being extended by 15 days and will now conclude on February 15, 2018. A copy of the IS/MND is posted at www.ladwp.com/envnotices. Copies of the Initial Study are also available for review at the following locations:
