

Home Energy Improvement Multi-Residential Program

Description

LADWP's Home Energy Improvement Program (HEIP) offers free energy efficient upgrades for residential property owners designed to help reduce energy bills, making their property more energy efficient.

Through the program, an assessment of the property's interior units will be performed by our trained technicians to identify opportunities for energy efficiency improvements.

How to Apply

Property owner/manager must complete a one-page application which can be downloaded at www.ladwp.com/heip.

Eligibility

Participant must be an LADWP water or common area electric account holder. Property must have 5 or more units.

For More Information
